D Descriptions - 69.6% (16/23 passed, 7 issues)

How to fix: Product descriptions drive both SEO and conversions. In Shopify Admin, go to Products, click the product, and edit the Description field. Aim for 150+ words that describe the product's features, materials, dimensions, and benefits. For collections, go to Collections and add a description that helps customers understand what they'll find.

A SEO - 100.0% (7/7 passed, 6 issues)

How to fix: SEO issues affect how your store appears in Google and social media. For meta titles and descriptions: in Shopify Admin, go to Online Store > Preferences for the homepage, or edit individual product/page SEO in the bottom section of each editor. For image alt text: click any image in the product editor and add descriptive alt text. For structured data: most Shopify themes include this automatically - if yours doesn't, consider switching themes or adding a schema app.

A Pricing - 100.0% (16/16 passed, 16 issues)

How to fix: Pricing and product data issues can confuse customers and hurt your store's organization. In Shopify Admin, go to Products and click each product to set prices, SKUs, and product types. Tags and product types help with filtering, search, and collections. Go to the Variants section to set individual variant prices and SKUs.
